

CALL FOR PAPERS

ICEE 2026

International Conference on Electrical Engineering

December 9–10, 2026 | Sidi Bel Abbès, Algeria

CALL FOR PAPERS

The Faculty of Electrical Engineering, Djilali Liabes University of Sidi Bel-Abbès, is pleased to announce the organization of the International Conference on Electrical Engineering – ICEE 2026, which will be held on 9–10 December 2026 in Sidi Bel Abbès, Algeria.

ICEE 2026 aims to bring together researchers, academics, engineers, PhD students, industry professionals, and experts from Algeria and abroad to present recent advances, exchange scientific ideas, and discuss emerging challenges in the broad field of electrical engineering. The conference will provide a high-level scientific forum for sharing innovative research results, technological developments, and practical applications in electrical systems, electronics, control, telecommunications, signal processing, artificial intelligence, renewable energy, smart grids, and related interdisciplinary domains.

The conference program will include keynote lectures, oral presentations, poster sessions, technical discussions, and networking opportunities. Contributions presenting theoretical developments, experimental studies, numerical modeling, industrial applications, and innovative solutions are warmly invited.

Conference Leadership

HONORARY CHAIR

Pr. BOUZIANI Merahi
Rector of Djilali Liabes University of Sidi Bel-Abbès

CO-HONORARY CHAIR

Pr. KHADRAOUI Mohamed
Dean of the Faculty of Electrical Engineering
University of Sidi Bel-Abbès

GENERAL CHAIR

Pr. BENDAOU Abdelber

PRESIDENT OF THE SCIENTIFIC COMMITTEE

Pr. CHELLALI Mohamed

PRESIDENT OF THE ORGANIZING COMMITTEE

Dr. KACHA Arslane Hatem

Submission of Papers

Prospective authors are invited to submit full-length papers of four pages of technical content, with a fifth page reserved only for references. Papers must present original, unpublished work and must not be under review elsewhere.

Submissions should follow the official conference paper template and formatting guidelines, which will be made available on the conference website. All submitted papers will undergo a peer-review process by the Scientific Committee.

All accepted papers must be presented at the conference by at least one registered author in order to be included in the official conference proceedings.

Conference Topics

Prospective authors are invited to submit original and unpublished papers related to, but not limited to, the following topics:

Track 1: Electrical and Electronics Systems

- Electrical Machines
- AC Drives
- Electrical Power Systems
- Power Components and Power Electronics
- High Voltage Engineering
- Electromagnetic Compatibility
- Renewable Energies
- Smart Grids
- Energy Storage and Management
- Battery Management Systems
- Materials for Electrotechnics
- Materials and Devices
- Materials for Photovoltaic Applications
- Diagnosis and Fault Detection
- Diagnosis and Non-Destructive Testing
- Analog and Digital Electronics
- Micro and Nanoelectronics: characterization, numerical modeling, simulation, surface analysis, etc.

Any other topic related to electrical and electronics systems

Track 2: Renewable Energy, Smart Grids and Sustainable Power Systems

- Condensed Matter Physics
- Materials Science and Engineering
- Renewable and Sustainable Energy
- Computational and Theoretical Physics
- Nanotechnology and Applications
- Optical Physics and Photonics

Track 3: Signal Processing and Computer Science

- Signal, Image and Video Processing
- Satellite and Medical Image Processing
- Numerical Modeling and Methods
- Artificial Intelligence Applications in Electrical Engineering
- Machine Learning and Artificial Intelligence
- Intelligent Control and Machine Learning
- Data Science
- Distributed and Parallel Processing
- Embedded Systems, IoT and Sensor Networks
- IoT and Edge Intelligence for Smart and Sustainable Networks
- Detection and Estimation Theory
- Adaptive Signal Processing
- Reflectometry and Sensing
- Any other topic related to signal processing and computer science

Track 4: Control, Automation and Intelligent Systems

- Control Theory and Applications
- Control of Linear and Nonlinear Systems
- Intelligent Control and Machine Learning
- Industrial Automation
- Robotics
- Process Control and Instrumentation
- Robust Control
- Automotive Control
- Cooperative Control
- Fault Diagnosis and Monitoring
- Industrial Process Monitoring
- Any other topic related to control and automation

Track 5: Telecommunications and Communication Systems

- Communication Systems
- Wireless Communications and Networks
- Optical and Photonic Communication Systems
- Antennas and Radio Frequency Devices
- Antennas and Wave Propagation
- Metamaterial Antennas
- Microwave Circuits and Systems
- Channel Coding
- Space-Time Coding and MIMO Techniques
- Cognitive Radio Communications
- Wireless Sensor Networks
- Networking for Multimedia Communications
- Cryptography and Cyber Security
- Any other topic related to telecommunications

Conference Fee

International Participants

- Authors
- Students

Non-IEEE

250 EUR
200 EUR

IEEE Members

200 EUR
150 EUR

National Participants

- Authors
- Student Authors
- Non-Authors

Non-IEEE

25,000 DZD
15,000 DZD
35,000 DZD

IEEE Members

20,000 DZD
10,000 DZD
30,000 DZD

Important Dates

October 25th,
2026

Paper
Submission
Deadline.

November
20th, 2026

Paper
Acceptance
Notification.

December
05th, 2026

Final Submission
of Accepted
Papers.

December 9–
10, 2026
